

BRADLEY R. CLAMPITT

Full-Stack Developer

Indianapolis, IN • (317) 557-8506

bradclampitt@icloud.com • www.bradleyclampitt.com

Professional Summary

Dedicated hands-on employee with proven organizational skills and attention to detail with 16+ years with a Dutch tanning machine manufacturer that is closing down their US office. Seeking a long-term position where my experience and knowledge are valued and can be challenged to help make a significant contribution to the success of my employer. Enhance the company's productivity and reinforce the value on people, products and service it promotes, while willing to help develop new skills and grow together. Associates Degree in Computer Network Systems from ITT, where a degree doesn't define someone who is always learning and absorbing all aspects of a given task or job to do the best of their abilities.

Work History

General Manager / Web Developer | Nov 2007 - March 2019

Ultrasun USA, Inc. – Indianapolis, IN

- Performed all day-to-day operations, staff selection and development, budget & financial administration, planning, organizing and scheduling work.
- Collaborated with management to complete necessary projects; working well with a team or independently to accomplish the completion of any assigned tasks and created new project tasks as needed.
- Ability to balance the demands of the business, with the changing production timelines to deliver excellent results.
- Worked remotely with product managers, marketing and designers to brainstorm and collaborate on multiple marketing and online projects.
- Responsible for the Ultrasun global portfolio (Ultrasun, Sunfit, Gardasun, freeSTAYL, CollagenicMachines, Dr. Muller, Transpashutters, and BeautyLight); development, programming, content, maintenance and updates for the portfolio of more than 200 domains and websites.
- Took the initiative to learn new languages, techniques and graphic programs to improve the user experience with our brand.
- Responsible for managing the company blogs, news postings and general website updates through our CMS portals.
- Gained 10+ years commercial experience in architecture, development, and customization of small and large-scale ecommerce and/or store systems using platforms such as; Magento, WooCommerce and PrestaShop.
- Created and maintained a catalog of more than 2,500 products; constantly improving the detailed descriptions, photo selections, product attributes and configuration options for pricing and shipping.
- Developed single, multi-site, multi-store setups, with custom viewing options, labels, texts and products based off of customer type, individual customers or previous purchases. Customized pricing and availability off of volume discounts, customer level discounts and individual product configurations.
- Developed a single database of information; integrating Magento and Wordpress to simplify maintenance and functionality.
- Reviewed every stage of the development process and put the websites through multiple testing methods before going live.
- Designed a single responsive template design using Wordpress and WooCommerce; converting all other platforms to standardize our brand across all markets with our partners. Developing hundreds of UI pages that were responsive and mobile compatible for all viewing sizes and devices.
- Managed online social media presence (YouTube accounts, Facebook Pages, LinkedIn, Twitter and Instagram) also managing our Facebook Advertising, Google Adwords and Google Analytics accounts.
